Email Subject:

Free Car Leads!! Why Not?

Email Body:

Hello there,

I'm Thomas Jenkins with Bentley Consulting. Let me get right to the point. We sell auto leads to car dealers nationwide at $2.00 a lead. These leads are incredibly fresh, originating from customers who have shown strong interest in purchasing a car within the next week, all within the past 48 hours.

The exciting part is that each lead comes with a minimum of $4,000 earmarked for a vehicle purchase, and these potential buyers all reside within a 15-mile radius of your dealership. We provide you with their names and phone numbers. However, it's worth noting that we lack information about their credit history, income, and job background.

But wait, there's more good news! Trying our service carries no risk, as I am extending an offer of 200 complimentary leads for you to evaluate. Our capacity allows us to deliver up to 300 leads per day. Each batch of leads is exclusively provided to a single dealership. Your time is valued, and I eagerly await your response.
